

▼ Descript

GLT530 level transmitter is the special structured application as high accuracy, small volume, stability, plus resistance to abrasion, oil, acid and alkali gas. The anti-cable ensured that it can meet different occasions measurement requirements. It is widely used in sewage lakes treatment as well as channels, large rivers, l re and coastline monitoring. This product has got intrinsic certification, explosion proof certification and CE c. The lead of two-wire circumfluent is no-polarity

GLT530		Level transmitter
		Submersible type
	M	
	B	
		Pressure range
	X m	
		Output signal
	T 1	4-20mA
	T 2	0-5Vdc
	T 3	1-5Vdc
	T 4	0-10Vdc
	T 5	0.5-4.5Vdc
		Power supply
		12Vdc
		24Vdc
		Accuracy
	A 1	0.25%FS
	A 2	0.5%FS
		Pressure type
		Gauge
		Electrical interface
		Cable connection
